

BROCHURE

Star Micronics Health & Safety Products and Solutions

Now, more than ever, people are increasingly aware of the cleanliness of their surroundings. The health, safety, and sanitization methods and procedures of the past are no longer quite enough to keep the public feeling comfortable walking through your doors. Extra measures, as well as extra accessories and equipment, are required.

Star offers a range of contactless solutions and health and safety products to keep your business squeaky clean and your customers feeling confident when returning to your brick-and-mortar locations.

Health and Safety Products

Antimicrobial Covers

Provide customers with a cleaner point of contact with antimicrobial covers that reduce microbes on shared touchpoints.*

- Almost-anywhere application, including door handles, door knobs, restroom surfaces, checkout counters, and more
- Includes pre-cut and custom options for a wide-range of surfaces
- Thoroughly tested, EPA-compliant, and latex-free
- Perfect for restaurant and retail spaces, and much more

Tamper-Proof Labels

Give your restaurant customers peace of mind. Star's Tamper-Proof Labels securely seal delivery, catering, and to-go food and beverage orders.

- Offers visual evidence if the label has been removed or repositioned
- Each roll includes 500 easy-to-apply labels
- 3" round labels to seal takeout bags
- 2" x 4" labels to seal large bags or close mouths of bags
- 0.75" x 7" labels to close drink lids

*NeverGerms® makes no claims regarding the safety or health of the general public or those interacting with its products. "NeverGerms®" and "Touch Less Germs®" are registered trademarks and not intended to have literal interpretation. NeverGerms products are manufactured by NeverGerms and distributed by Star Micronics. Although these products are designed to reduce microbe populations on commonly-utilized surfaces and have been tested by the manufacturer for their antimicrobial properties, Star Micronics cannot guarantee that they will eliminate all risk of germ, including virus, transfer from such surfaces. Star Micronics, as distributor, relies entirely upon claims made by manufacturer as supported by prior research. For further information, please visit www.nevergerms.com.

POSShield

Placed between the customer and the cashier, Star's POSShield acts as a sneeze guard and limits the spread of germs.

- 30" x 33" plexiglass shield
- No countertop drilling or mounting required
- Adjustable mounting pole
- Light-weight and portable
- Compatible with any existing POS or mPOS terminal

Contactless Solutions and Accessories

TSP654ISK Thermal Printer Perfect for Online Ordering Applications

Equipped with a Taken Sensor, this printer is perfect for online ordering applications. The Taken Sensor enables the printer to hold print jobs until the first print job is taken.

- Repositionable, liner-free thermal label solution
- Improves order accuracy up to 99%
- Liner-free yields 60% more labels/roll than die-cut
- 80mm and 58mm paper support
- High reliability and performance at a low cost

mC-Print3 and mUnite3 Ideal for Self-Service Applications

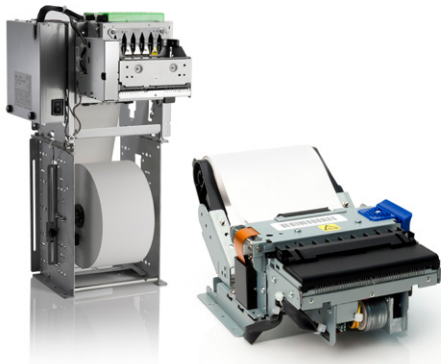

Create beautifully simple and functional self-service stations for customers with the mC-Print3 and mUnite3 combined with a tablet device of your choice.

mUnite features:

- POS enclosure
- Universal VESA mounting
- Hidden cable management
- Supports any iOS, Android, and Windows tablet or touchscreen computer

mC-Print3 features:

- Print Flat technology
- Easy integration through common SDK
- Bluetooth, USB, Lightning, LAN, CloudPRNT, USB-C
- SteadyLAN™ technology
- USB peripheral device connectivity
