

AVAYA IS WINNING IN SLED

As the second largest vertical for the company with over 80% of business through partners, it's time to partner together. We have dedicated Channel, Sales, Engineering, and Marketing resources available to work with your teams to bring in leads and convert them into sales.

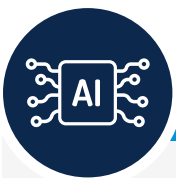

Internal Use Only

AXP

Our next-generation management and automation platform that provides real time reports and dashboards customized to meet and exceed customer needs.

AI

Avaya embraces AI and we integrate it into our solutions. These solutions support virtual agents for municipalities, publicly funded utilities, both the student journey and student experience, and more.

ACO

We've sold over 100,000 seats in a few short years on our cloud communications platform empowering healthcare systems, universities, and local governments to work from anywhere.

APO

IP Office is a full-featured UC platform implemented and managed on-prem. We mean it when we say that moving to the cloud is a journey at your own pace and recognize that an on-prem solution may still fit your needs.

NG911

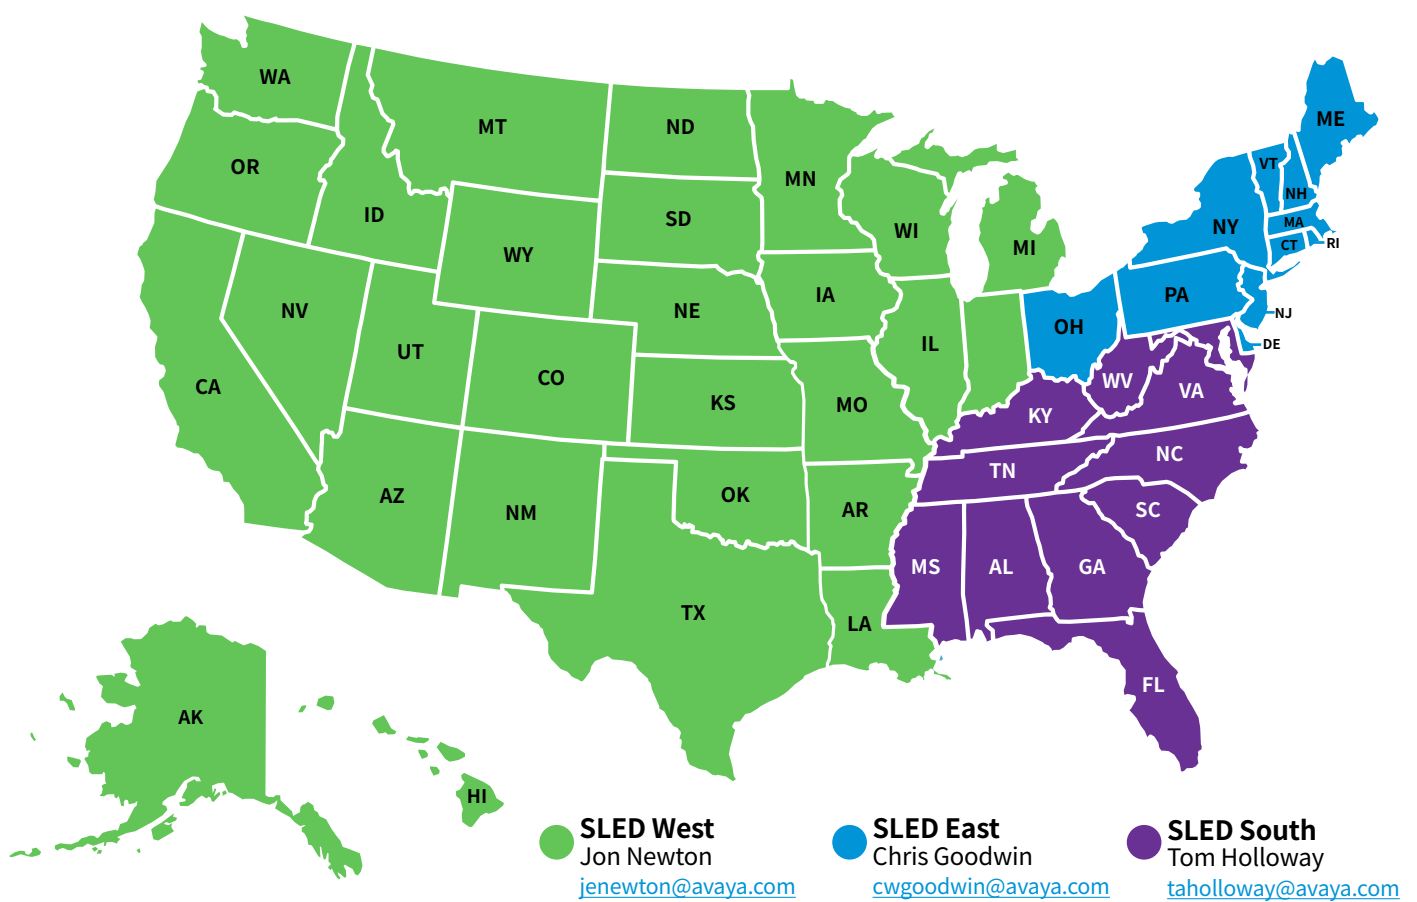

Compliance only scratches the surface for effective emergency management. Incorporating AI and automation into your plans ensures the safety of our clients and their customers before, during, and after an emergency.

AURA

Our flagship on-premises Avaya Aura Platform delivers dependable, secure, and scalable unified communications and customer service solutions throughout your business. It's designed to integrate and streamline your communication channels, including voice, video, messaging, and conferencing, to enhance productivity and efficiency.

Our Sales teams are divided into three regions, please reach out to the Regional Sales Leader to meet with your counterparts.
