

K-12 | Higher Ed | Student Housing

Security Solutions for Schools, Campuses, and Districts

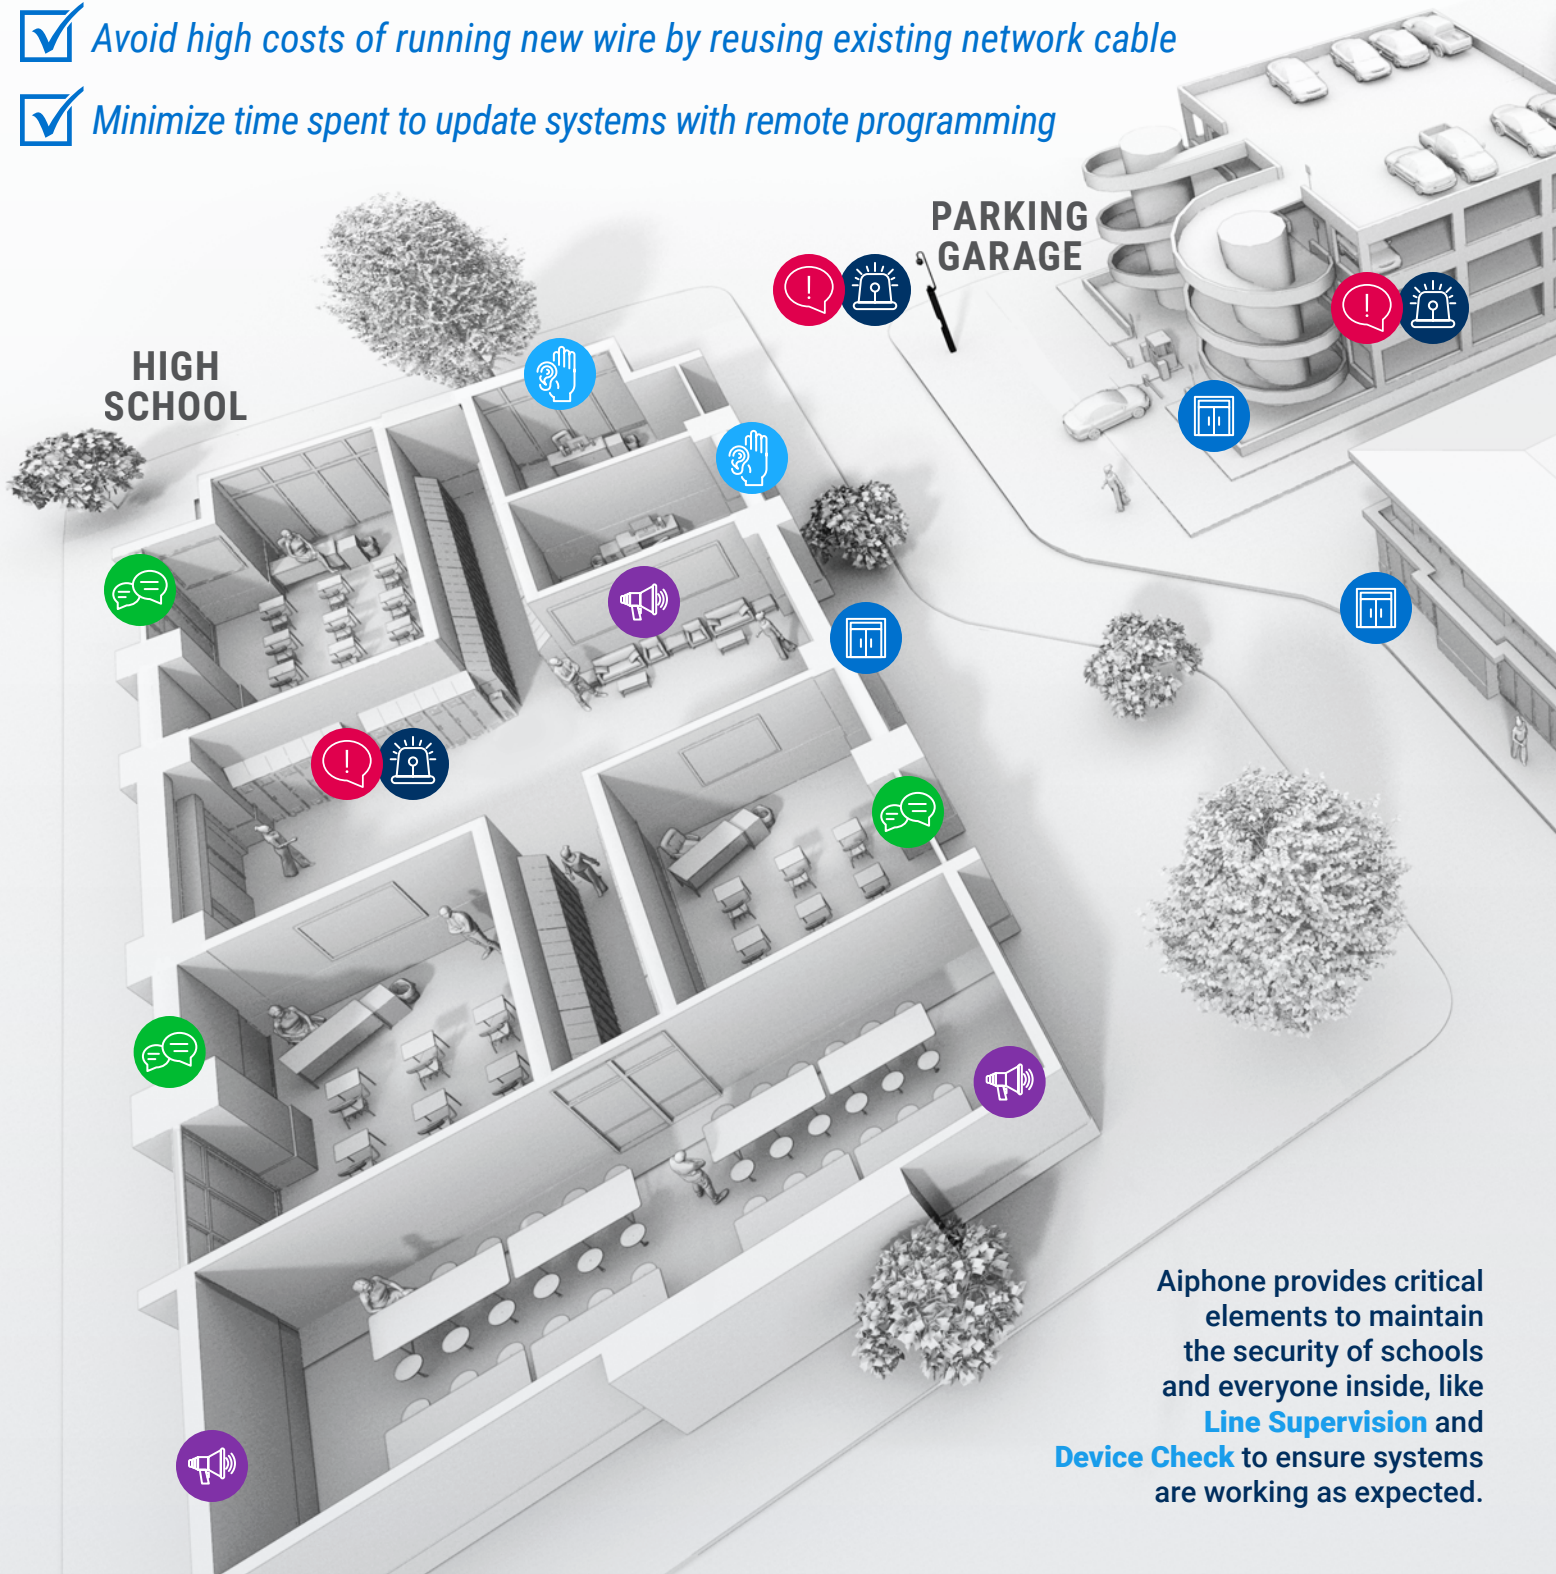

Offering an array of access control and communication products designed for school security and student safety.

Save with Centralized Security

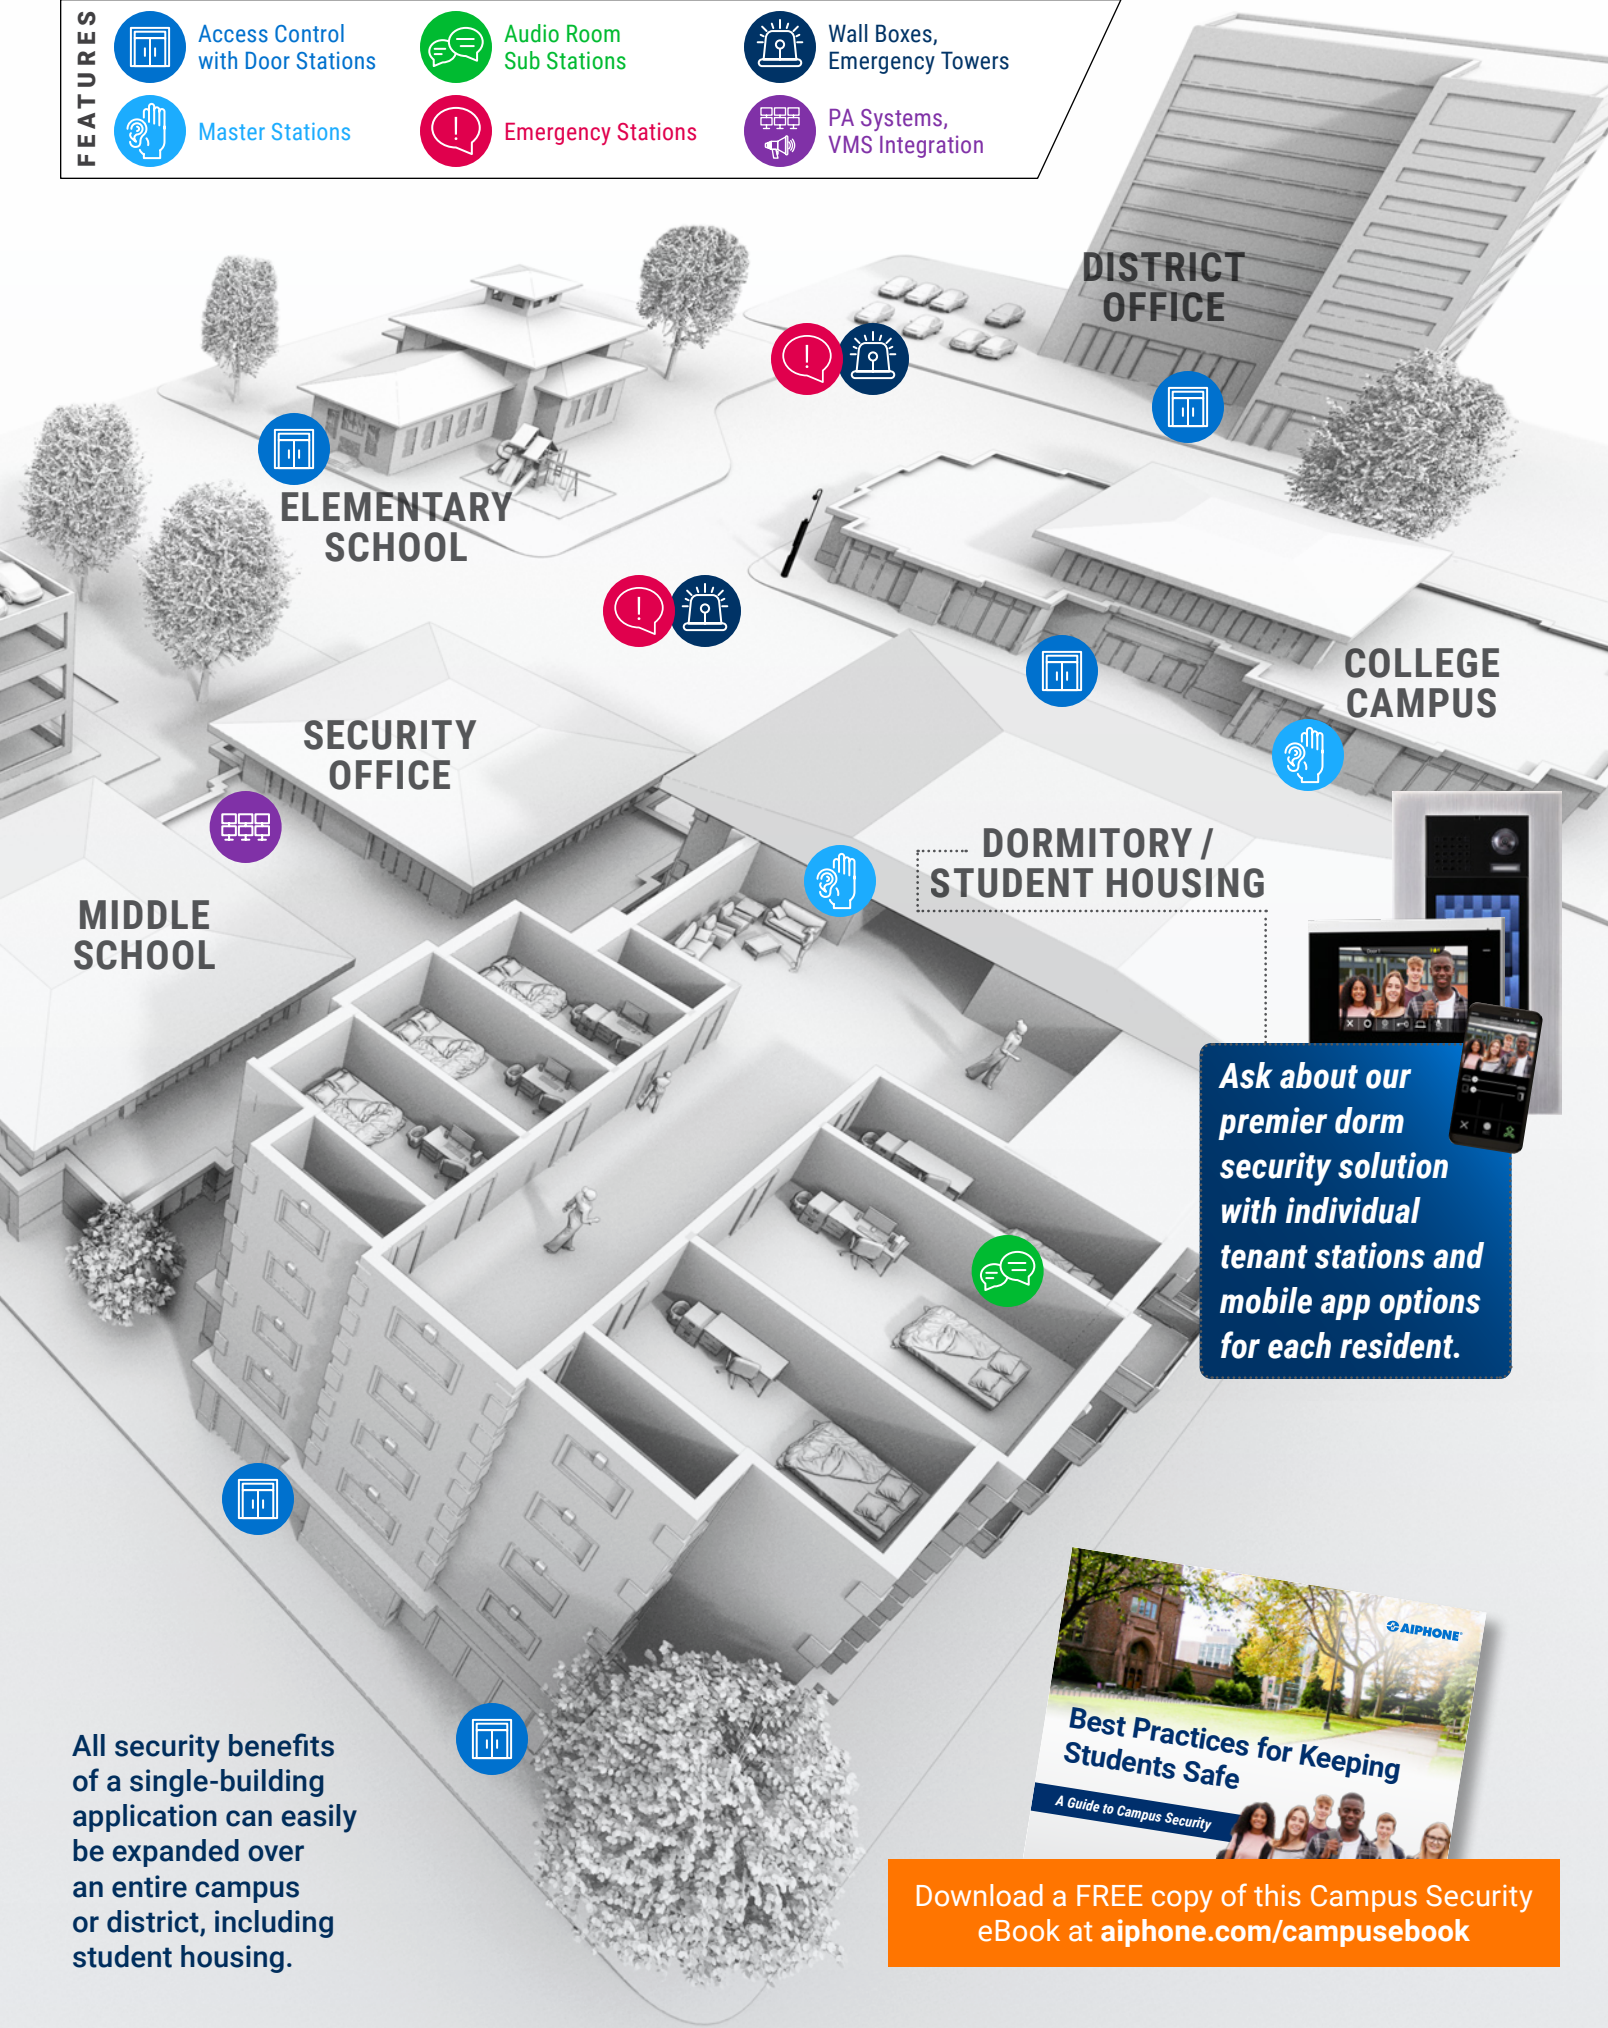

With our access control and IP intercom systems, a single person can verify visitors and monitor school grounds across an entire networked campus or district. Regardless of building sizes—or the distances between them—you can connect virtually every building together.

- ✓ *Reduce overhead for added security staff and resources*
- ✓ *Avoid high costs of running new wire by reusing existing network cable*
- ✓ *Minimize time spent to update systems with remote programming*

Aiphone provides critical elements to maintain the security of schools and everyone inside, like **Line Supervision** and **Device Check** to ensure systems are working as expected.

- FEATURES**
-  Access Control with Door Stations
 -  Audio Room Sub Stations
 -  Wall Boxes, Emergency Towers
 -  Master Stations
 -  Emergency Stations
 -  PA Systems, VMS Integration

Ask about our premier dorm security solution with individual tenant stations and mobile app options for each resident.

All security benefits of a single-building application can easily be expanded over an entire campus or district, including student housing.

Combine Access Control with Door Stations

- Keep all entrances locked during school hours
- Install door stations with our access control system to provide calling points for parents and visitors to request access into your school
- Protect interior locations with access control too, such as server rooms, computer labs, or any restricted area
- Card readers are a convenient option for faculty and other authorized personnel to quickly gain access

Empower Office Staff with Master Stations

- Clearly identify visitors and determine their intent before unlocking the door
- Monitor activity throughout entire school or campus
- Use as visitor management
- Record calls to a removable SD card
- Immediately call other offices and classrooms for two-way communication
- Make paging announcements or broadcast emergencies
- Use convenient bell scheduling for routine class changes

Communicate with Classroom Stations

- Answer calls and pages from main office/reception
- Reach office staff directly from classroom (or from a dorm room if used for student housing)
- Have open or private conversations

Ask about our solutions with mobile apps

Provide Help Points with ADA-Compliant Emergency Stations

- Get immediate help with emergency calling
- Dual-button stations available for general and emergency calls
- Choose your preferred mounting solution: flush/surface mount or mount into emergency wall boxes/towers

Secure Remote Areas with Wall Boxes and Towers

- Parking lots
- Parking garages
- Stairwells
- Hallways
- Any area where trouble might lurk
- Deter prowlers with highly visible emergency towers
- Provide students and staff help points across large grounds

Serious about school pride? Towers can be customized with your school color choice.

Integrate for a Comprehensive Security Solution

- Use your PA system for all pages, alerts, and bell notifications to be clearly heard throughout your school/campus
- Capture a more comprehensive picture of the situation with network camera integration
- Log activity for more accurate and detailed record-keeping

Need proof a visitor was at your school? Save images to an NVR and reference them later if evidence is needed.

Options. Options. Options. And then more options.

Select from simple, audio-only intercoms to comprehensive, access control and IP video security solutions.

Have confidence that your students, faculty, and assets will remain safe from potential threats. From classrooms to common areas, we offer a breadth of trusted security solutions to apply throughout your school, campus, or entire district.
