

## Eaton solutions simplify enterprise complexity

**Keeping an enterprise online is no small task.** Maintaining continuous uptime while managing budgets, changing business needs and diverse environments is a juggling act. That's why working with a dependable partner capable of rising to enterprise IT challenges is crucial. With a wide-ranging IT infrastructure portfolio, innovative remote management software suite and global network of experienced service technicians, Eaton supports your entire IT ecosystem from server rooms to office workstations and warehouses. Eaton's comprehensive solutions simplify enterprise complexity so you can spend less time sorting out incompatibilities and managing vendors and more time supporting growth.

**Eaton helps large, multi-campus businesses and enterprises save time, save money and reduce risk to focus on what really matters: driving business forward.**

### Save time

- Brightlayer software helps you remotely manage equipment
- Expert technicians respond to alarms and outages quickly
- Dedicated team designs complete enterprise solutions

### Save money

- Single-vendor solutions reduce PO- and service-tracking overhead
- Flexible products like modular UPSs and universal-input PDUs reduce obsolete e-waste

### Reduce risk

- Predictive analytics help you identify and address issues before they cause outages
- Cybersecure network cards and remote firmware updates keep your network safe

*Powering Business Worldwide*

# Enterprise IT infrastructure

Eaton solutions save time, save money and reduce risk everywhere your enterprise operates worldwide.

## Data centers

- Rack enclosures
- Cabinet PDUs & RPPs
- Scalable 3-phase UPSs
- Lithium-ion batteries
- In-row cooling
- Cable management
- Busway systems
- Network cables
- Rack PDUs
- Brightlayer DCPM (p. 4)
- Preventive maintenance
- Environmental sensors
- Static transfer switches
- UPS network cards
- UPS modernization

## Network closets

- Open frame racks
- Portable spot cooling
- Cable management
- Wallmount racks
- Network UPSs
- Network cables
- Environmental sensors
- Rack PDUs & ATSS
- Lithium-ion batteries
- Surge protectors
- Brightlayer DITPM (p. 4)
- Patch panels
- UPS network cards
- Preventive maintenance

## Offices

- TV/monitor mounts
- Monitor stands
- Surge protectors
- Office/desktop UPSs
- PoE solutions
- TV/monitor carts
- Cables & connectivity
- Open frame racks
- Rackmount UPSs
- Wi-Fi enclosures
- Wallmount racks
- Device chargers
- Laptop docks
- Work-from-anywhere solutions

## Server rooms

- Preventive maintenance
- Modular UPSs
- KVM switches
- In-row cooling
- Lithium-ion batteries
- Racks
- Cable management
- Network cables
- Patch panels
- Rack PDUs
- Environmental sensors
- UPS network cards
- Onsite & extended warranties

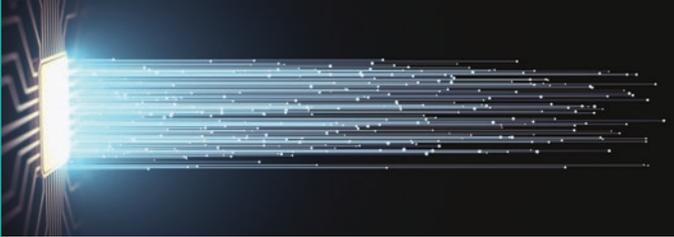

## Warehouses/distribution

- Surge protective devices (SPDs)
- Industrial network switches
- PoE solutions
- TV/monitor mounts
- Command consoles
- Cable management
- Industrial UPSs
- Industrial racks
- Industrial cables
- Charging carts
- Industrial/safety surge protectors
- Charging carts

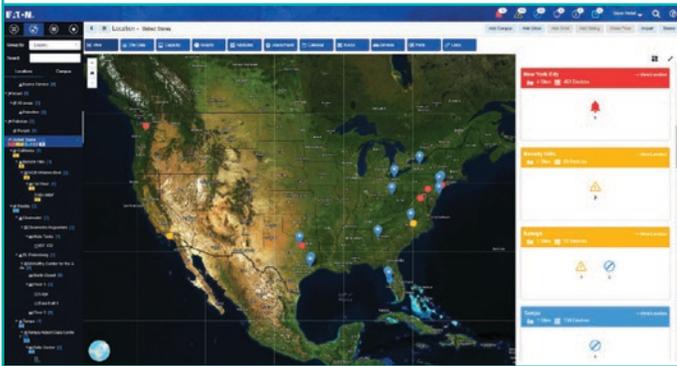

# Eaton's Brightlayer Data Centers suite allows you to manage diverse IT environments across multiple sites from one location.

## Distributed IT Performance Management (DITPM)

### Manage all your distributed IT environments:

- ✓ **Know what's happening** in all locations with detailed and definable real-time alerts
- ✓ **Resolve equipment issues quickly** by remotely power cycling UPS and PDU outlets
- ✓ **Locate equipment easily** within a specific rack by site to facilitate troubleshooting and changes
- ✓ **Update firmware remotely** to protect against cybersecurity threats and support standardization
- ✓ **Detect new assets automatically** to streamline change management and improve mapping
- ✓ **Automate responses** like load shedding and safe shutdown to extend runtime and protect data

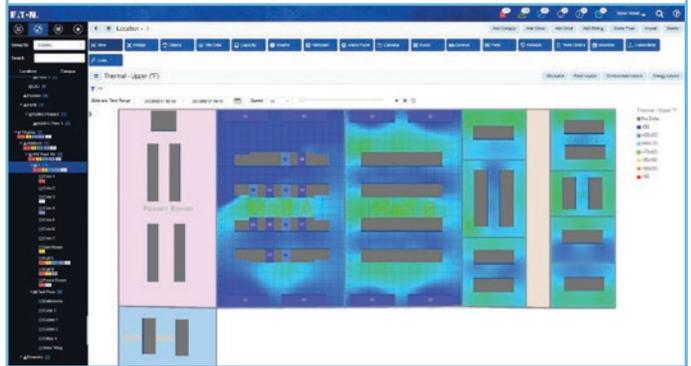

## Data Center Performance Management (DCPM)

### Maintain uptime and improve operational efficiency:

- ✓ **Detect issues proactively** with meaningful alarms and escalation with five levels of severity
- ✓ **Gain actionable insights** through easy-to-understand, customizable dashboards
- ✓ **Visualize environmental conditions** with thermal images for heat and humidity
- ✓ **Monitor, control and optimize** power usage by connected equipment, including site PUE
- ✓ **Plan capacity and budget for growth** with predictive insights based on real-world data
- ✓ **Manage network and power cabling** with tracing, troubleshooting and impact analysis
