Gaming solutions

The only thing more painful than "Game Over" is a power interruption in the middle of your game. Having the right UPS battery backup installed in your gaming setup, along with robust surge protection and cables, will support gaming continuity and ensure optimal power qualify on an ongoing basis—meaning the only downtime you experience is in-game cut scenes. Don't let power problems interrupt gaming with friends, drop your rank or cut you off in the middle of a stream—your premium gaming console/PC setup deserves premium protection.

Save time

- **Continuous power provides uninterrupted gaming**
- **Battery backup power provides ample time to save progress in the event of an outage**

Save money

- **Energy-saving outlets cut power to unused peripherals**
- **Clean power delivery lengthens sensitive equipment lifespan**

Reduce risk

- **Real-time PC monitoring ensures ample power capacity**
- **Automatic voltage regulation (AVR) and surge protection safeguard against damaging voltage threats**
