Empowering K–12 facilities with Eaton's cutting-edge solutions

Eaton's comprehensive product portfolio can transform classrooms into learning hubs. From robust UPS units to advanced power management solutions, we can keep K–12 schools connected and students engaged. Technology and remote learning have transformed traditional K–12 classrooms into network environments. Eaton IT solutions support schools in their mission to serve students with modern, interactive instruction.

Save time

- Eaton's charging solutions keep devices powered and ready to use, allowing for seamless integration of technology into the curriculum
- Eaton's comprehensive range of solutions and services tailored to the needs of education environments allows for a one stop shop for all your needs

Save money

- Eaton's wide range of products for schools simplifies ordering and managing
- Adjustable height workstations and monitor mounts means only buying one desk
- Expert E-rate funding assistance for eligible products ensures you are getting the best price

Reduce risk

- UV disinfecting and antimicrobial protection on equipment improves health and safety for staff and students
- Prevent disruptions to power-dependent digital learning and allow educators to focus on inspiring young minds without interruptions
