

Eaton's medical solutions

Empowering healthcare facilities with Eaton's cutting-edge solutions

In the fast-paced world of healthcare, reliable IT and power solutions are essential to ensuring seamless patient care. Eaton, a leading provider of innovative power management solutions, is dedicated to empowering healthcare facilities with a comprehensive

range of electrical products designed to meet the unique demands of the industry. From patient care vicinities to pharmacies and network closets, Eaton's cutting-edge offerings are the foundation of a safe, efficient, and patient-focused healthcare environment.

Save time

- Charging carts and stations make maintaining mobile devices more efficient
- Skip hunting for a plug with patient-care vicinity rated power strips
- Spend less time servicing UPS batteries with lithium-ion batteries

Save money

- Eaton's wide range of products for healthcare facilities simplifies ordering and managing
- Retrofitting facilities with power strips, flexible workstations and mobile cooling is more cost-effective than facility updates

Reduce risk

- UV disinfecting and antimicrobial protection on equipment improves health and safety for staff and patients
- Protect expensive medical equipment from damaging power fluctuations with medical-grade surge protectors

Powering Business Worldwide
