

PANACAST 50 SERIES**Dynamic Composition Explained**

Dynamic Composition is a feature available across the PanaCast 50 series that uses powerful onboard AI to deliver close-up views of participants in physical meeting rooms. It gives everyone in the meeting room more visibility on screen, improving the meeting experience for virtual attendees.

Dynamic Composition appears slightly differently between PanaCast 50 products and virtual meeting platforms, so read on for more details.

PANACAST 50 & PANACAST 50 ROOM SYSTEM**Dynamic Composition**

PanaCast 50 and the PanaCast 50 Room System both offer single-stream Dynamic Composition. Users can see close-ups of up to the four most recent speakers in a meeting room, all in one video stream.

Availability

Works with PanaCast 50 in Microsoft Teams and Zoom platforms, and PanaCast 50 Room System in Microsoft Teams Rooms Windows (MTR-W) and Zoom Rooms.

**PanaCast 50 Dynamic Composition in Teams****Multi-stream Dynamic Composition* for Microsoft Teams Rooms**

Multi-stream Dynamic Composition (powering Microsoft IntelliFrame) is available for PanaCast 50 (when used as part of a room system) and PanaCast 50 Room System. This shows users 3 separate video streams from the meeting room: the current speaker, the previous speaker, and a panoramic room view.

Availability

Only available for PanaCast 50 and PanaCast 50 Room System devices connected to Microsoft Teams Rooms Windows (MTR-W). Microsoft Teams Rooms IT admins can choose between Single-stream Dynamic Composition or Multi-stream Dynamic Composition.

This feature is currently unavailable for Zoom Rooms.

**Multi-stream Dynamic Composition in Teams**

PANACAST 50 VIDEO BAR SYSTEM

Single-stream Dynamic Composition*

Dynamic Composition is available for the PanaCast 50 Video Bar System.

This Single-stream Dynamic Composition experience gives users a close-up view of up to 4 of the most recent in-room speakers, along with a full 180-degree view of the room - all in the same video stream.

Availability

Microsoft Teams Rooms Android (MTR-A) and Zoom Rooms.

PanaCast 50 Video Bar System Dynamic Composition for Teams Rooms

Multi-stream Dynamic Composition* for Zoom Rooms

Jabra's Multi-stream Dynamic Composition experience powers Zoom Smart Gallery for the PanaCast 50 Video Bar System.

This feature enables users to see 6 video streams in their Zoom meeting, with a panoramic view of the meeting room and 5 additional video streams providing close-ups of the people in the meeting room.

Availability

PanaCast 50 Video Bar System for Zoom Rooms only. Currently not available for Microsoft Teams Rooms Android (MTR-A).

PanaCast 50 Video Bar System Zoom Smart Gallery

In this example, there are 6 people in the room so 2 people share a video stream. This enables everyone to appear on-screen, for a more engaging remote experience.
