Epson **DM-D110 Series**

Easy to read and client-friendly

Clear and easy to read, the large, high brightness screen and 2-line by 20-column format of the DM-D110/210 Series offers high speed data transfer, flash memory and an extensive font table. The display panel has a wide viewing angle and the head can be freely tilted and swiveled to any angle, providing customers with information at a glance.

Flexible interfaces

Easy connection means that these displays support a wide range of power supplies from 12V to 48V, and they are is ESC/PoS compliant as well as OPoS compatible. Also offer flash memory and extensive font table. The DM Series displays can be easily mounted onto any of Epson's TM or IR series, or there are optional stands available.

KEY FEATURES

- Wide viewing angle by VF-Display technology
- Easy to read characters
- Outstanding reliability
- Movable display head to fit any installation
- Direct connection or Pass-through models available
